

World premiere at the „K“
in Düsseldorf, Germany

[scrub!]

the metal-free
interdental BRUSH

PHENEEO

At the world's largest
trade fair for plastics
and manufacturers,
pheneo presents:

the new scrub!

A dental cleaning brush
produced **COMPLETELY** by
1K injection molding.

We will show you a complete
production cell at the booth,
starting from pellets
to the packaged product.

- ▶ No residue
- ▶ No injury to the papillae during
cleaning, e.g. of orthodontic
restorations
- ▶ Efficient cleaning of tooth
surfaces and interdental areas
- ▶ No damage to implant surfaces
- ▶ Allergen-free, no coatings,
no metals
- ▶ Pleasant feel in the mouth,
especially with metal restorations

For our B2B customers:

- ▶ Maximum flexibility in shape,
colour, handle design and
packaging

We would love to show you the available
options to your business on your premises.
